The largest learning event in history

During Computer Science Education Week, December 7-13, 2015

The Hour of Code is coming, again!

Computer science is a foundation for every student. Join us to help millions of new learners start with one Hour of Code. **Sign up at hourofcode.com**

What is the Hour of Code?

A one-hour activity. Students of all ages can choose from a variety of self-guided tutorials, for kindergarten and up. Tutorials work on any modern browser, tablet, smartphone, *or even with no computer at all*.

Code.org's own tutorials feature Disney's *Frozen*, Scrat from *Ice Age*, Angry Birds, and Plants vs. Zombies. **New tutorials are coming to kick off the 2015 Hour of Code!**

A spark to keep learning computer science. Once students see what they create right before their eyes, they're empowered to keep going.

No experience needed from teachers and students.

A global movement with more than 100 million learners in 180 countries. Anyone, anywhere can organize an Hour of Code event. Tutorials are available in 40 languages.

"I challenge girls in every single country to learn one Hour of Code"

— Malala Yousafzai
Nobel Peace Prize winner
